Project Title: Lewis Hamilton Website

I would like to make a multi-page mini site about the British motorsports driver Lewis Hamilton. The Wikipedia article has a large amount of information about his personal life as well as his career/statistics, so I plan to have the website focus primarily on these two areas, with other shorter pages throughout.

Home Page: Introduction/Current Career Information + Standings

Page 1: Early Life

Page 2: Junior Racing Career

Page 3: Formula 1 Career

Page 4: Personal Life + Non-Racing Endeavors

Page 5: Statistics

Page 6: Sources
